Group/Individual theme: (What was your theme? Why did you take this theme?) (150-250 words)	Our them was to represent the consequences of human actions on nature. There was a Jungle, jungle was symbolic as a powerful thing on our environment,on the other hand there was a model who was symbol the humanity, humanity was represent how they are destroying the nature for their own good. We mainly want to represent that we destroy the nature but we forget that we are nothing without nature . Nature is an important part of our modern history life and humanity.But we kept destroy our nature but end of the day we realize our mistake and mourn about our mistake. Nevertheless,when we realize, it's too late. That's why we want to tell people be wise before you destroy the nature. Artwork		
Layout & Plan: (Attach the image of your layout)	I choose to represent the jungle. I choose jungle because jungle was destroyed more often and no one was cared until the global warming	02

(Why and what kind of fashion did you want to do?) (150-250 words)	rise. That's why I want to represent the jungle. To create the jungle look I have to use a lot of green leaf. To create the green leaf I used some unused green clothes. I made leaf with this clothes and I also made some butterflies also with paper. After made this thing I use color to make the dress more pretty and eye catchy. I wore a wing also, the wing was a used wing ,so I reused the wing,when I found the wing,it was not wearable.Then,I use my painting skill and also color the wings. For,the shoes,it was my broken shoes , I bought the shoes when I was in 9/10 ,it was not in a wearable situation.But,I glued the shoes add my paper butterflies and then wear it on the runway!	
Production: (Please write about the production process of your work from the beginning including materials you used, the place you worked at, any obstacles you faced, any improvisation you did, and the result came out at the end.) (Please attach some images of your production process.) (300-400 words)	We did our work in my place (Faria Akter)'s place. We have a lot of fun. We was quiet Worried about finishing our dress because we was only 3members in our team. But , when we started to do our jobs our tension started to grow up!!!There was a lot of work! We have to make 4dresses and 2 pair of shoes.But somehow we managed to do this on time! We use used clothes,glue gun,broken shoes,color,paper etc.so, There was an interesting event, when we was working together. I got mad very fast,so one day I was trying to explain my teammates that what I want, they was unable to understand then I became made , wasn't talking to them at all.Then my mom came and offered us "Khichuri". She said,if we have some food then we'll be able to work peacefully again. And it's true it worked like magic,I was again cool tempear after the meal. It was one of the most funny and memorable event for me.i wish we could go back to the time and enjoy more and more.	04
Exhibition		
Exhibition: (Where was the show, how was that platform, who were the spectators, was any other platform better for the show, and why?) (150 -250 words) (Please attach some images/screenshots of your final work and show)	The show was in ULAB 's permanent campus. So,our platform was the red building. The platform was good but it can be more beautiful if there was a little more decorations and also there was a very less carpet.If there was more carpets,in my opinion it may be very helpful for the models (as an model).and also the guest was seat in the sunlight if there was more facilities for audiences it'll be great I guess . Nevertheless,if we can do this show in our play ground I guess it'll be more pretty and eye-catching. Like,if we build a platform in the field and carpets in the whole walkway.Then it'll be very beautiful to see a runway where models are representing the nature values in the middle of the nature. Also,we can make an arrangement for the audience inside the filed for the guests,and also some food for them outside the ground.	02
