CI Theme 1 mark

Write about the semester theme "ecosystem restoration" in your language. (50–150 words)

This semester our CI theme was eco system restoration. Eco System Restoration means protecting the remaining intact ecosystems and helping in the restoration of those that have been wrecked or harmed. The main purpose of eco system restoration is restoration should support and help the nature from destroy. Restoration can happen in many ways for example if we plant every or use less harmful products so that our nature can recover and produce more Green House Gas. We, should be more active in eco system restoration other wise there'll be an alarming reaction from the nature.

Group / Individual Theme 2 marks

What was your theme? Why did you take this theme? (150–250 words)

Our theme was to represent the consequences of human actions on nature. There was a Jungle, jungle was symbolic as a powerful thing on our environment, on the other hand there was a model who was symbol the humanity, humanity was represent how they are destroying the nature for their own good. We mainly want to represent that we destroy the nature but we forget that we are nothing without nature. Nature is an important part of our modern history life and humanity. But we kept destroy our nature but end of the day we realize our mistake and mourn about our mistake. Nevertheless, when we realize, it's too late. That's why we want to tell people be wise before you destroy the nature. We should take our humanity improve day by day with the help of nature not by destroying them. we also choose this topic to encourage people that it's not too late, to be aware and improve the sense of responsibility.

Artwork — Layout & Plan **2 marks**

Attach the image of your layout. Why and what kind of fashion did you want to do? (150–250 words)

I choose to represent the jungle. I choose jungle because jungle was destroyed more often and no one was cared until the global warming rise. That's why I want to represent the jungle. To create the jungle look I have to use a lot of green leaf. To create the green leaf I used some unused green clothes. I made leaf with this clothes and I also made some butterflies also with paper. After made this thing I use color to make the dress more pretty and eye catchy. I wore a wing also, the wing was a used wing, so I reused the wing, when I found the wing, it was not wearable. Then, I use my painting skill and also color the wings. For, the shoes, it was my broken shoes, I bought the shoes when I was in 9/10, it was not in a wearable situation. But, I glued the shoes add my paper butterflies and then wear it on the runway!

Production **4 marks**

Write about the production process from the beginning — materials used, the place you worked at, obstacles, improvisation, and the final result. (300–400 words)

We did our work in my place (Faria Akter)'s place. We have a lot of fun. We was quiet Worried about finishing our dress because we was only 3 members in our team. But, when we started to do our jobs our tension started to grow up!!! There was a lot of work! We have to make 4 dresses and 2 pair of shoes. But somehow we managed to do this on time! We use used clothes, glue gun, broken shoes, color, paper etc. so, There was an interesting event, when we was working together. I got mad very fast, so one day I was trying to explain my teammates that what I want, they was unable to understand then I became made, wasn't talking to them at all. Then my mom came and offered us "Khichuri". She said, if we have some food then we'll be able to work peacefully again. And it's true it worked like magic, I was again cool temper after the meal. It was one of the most funny and memorable event for me. i wish we could go back to the time and enjoy more and more.

Exhibition **2 marks**

Where was the show, how was that platform, who were the spectators, and would another platform have been better — and why? (150–250 words)

The show was in ULAB's permanent campus. So, our platform was the red building. The platform was good but it can be more beautiful if there was a little more decorations and also there was a very less carpet. If there was more carpets, in my opinion it may be very helpful for the models (as an model). and also the guest was seat in the sunlight if there was more facilities for audiences it'll be great I guess. Nevertheless, if we can do this show

in our play ground I guess it'll be more pretty and eye-catching. Like, if we build a platform in the field and carpets in the whole walkway. Then it'll be very beautiful to see a runway where models are representing the nature values in the middle of the nature. Also, we can make an arrangement for the audience inside the field for the guests, and also some food for them outside the ground.

Feedback 4 marks

Five people were interviewed with the same five questions. The five questions were:

1. Please tell me your name and profession (in detail).
2. What message do you get after seeing my artwork — or is it confusing and hard to understand?
3. If you got a message, which clues helped you understand it?
4. Does this artwork look common or extraordinary? If it looks unique or creative, what kind of uniqueness do you find in it?
5. My message was that we shouldn't destroy nature for humanity. Have you found this message in the artwork? If it could be more visible, please suggest how.

Interviewee 1 Anika Nawar — LLB student, University of Asia Pacific (2nd year)

2. No, it was not very confusing or hard to understand that you are representing the nature. I really love your artwork; after seeing your dress I thought you was representing the nature or kind of something like this!
3. Yes, I get the message that we should protect our nature. I got this clue after looking at your dress because you use a lot of green leaf. I also love the idea.
4. Obviously, it was very creative and extra ordinary. In my opinion, you doesn't make something which is not wearable!! You make something that's wearable and also represent our nature and also helps to use the trash — Brilliant!
5. Our message was to tell people that we shouldn't destroy our nature for humanity. So, have you found this message? Yes, I kinda found this message from your act and dress!

Interviewee 2 Suriya Akter Ria — Media Studies & Journalism student, ULAB (5th semester)

2. To be honest your art work was mesmerising. No, its not so difficult to understand your artwork. Creating art with a focus on trash can be a powerful commentary, you proved that.
3. The theme of a "trashon show" with a focus on a tree or jungle is a brilliant and innovative concept. This theme helped viewers to understand the impact of human activity on ecosystem.
4. The artwork with a theme of trees and jungle is exceptionally creative and unique. The incorporation of trees and butterflies into the dresses adds a distinctive touch, making the overall concept stand out with artistic ingenuity.
5. Your artwork successfully delivered the message with its tree and jungle theme, especially through the creative addition of trees and butterflies on the dresses. To make the message even more noticeable, you might highlight essential elements or use symbols that closely align with your intended meaning.

Interviewee 3 Nayem Arman — CSE student, Prime University; also an entrepreneur

2. Your idea was really good and your artwork also!
3. I guess you was trying to save the nature? Your dress was very good and very easy to understand — I love it.
4. Yes, every artwork is different and yeah I got your message.
5. Yes, I got your idea of protecting the nature from your act and dress also.

Interviewee 4 Sabbir — Biochemistry student, North South University

2. No, your art work was an easy guess to understand. Proud of you bro!!!

3. I got the idea of your dress from your used green hand made flowers.
4. Very creative and extraordinary. It's creative because it's not only for the show, it's also outside wearable!
5. Yes, I got the message from your act and dress and voice from both.

Interviewee 5 Rabbi — Model and entrepreneur; studies at BUFT

2. Yes, I love your dress, it was an easy guess.
3. By looking at your dress anyone can understand what you are going to say. It was a very hard task but I love it — you did it so well!!
4. Yes, it was very extra ordinary and creative.
5. Got your message — it was also visible.

Realization 7 marks

Did the audience get your message as expected? What did you realize about your success? What were your strengths and faults, and how would you do it differently next time? (400–500 words)

I'm actually quite happy because all the people who gave me very good review. Everyone was talking about my dress, they love my dress a lot. I also loved — I wanted to show people you can make something wearable and represent also. I want to show people that you don't need to be chunky if you are going to represent something; you can make a dress and represent it without confused the people. I guess I succeeded in this sector. The most interesting thing is everyone understand my message by looking at my dress and my ramp walk. I'm very grateful to my God because he gave me the ability to do this job properly. I was also very happy with my work. But I'm only sad for one thing — no one praise or talk about my shoes; I really put a lot of efforts to make the shoes wearable. People may not be notice them!! But I'm very happy with the reviews.

If we again do the Trashion Show, I guess our instructors should start their work on time, because they delay a lot! And we could switch the place with the field — it may be a good one.

That's all I have to say. Thank you for giving me the opportunity to express myself.
